Accelerate transformation with results-driven innovation

Together, DXC Technology and Hewlett Packard Enterprise help you be inspired by edge-to-cloud innovations and experts that accelerate your business

DXC and HPE at a glance

- Next-generation services for cloud, workplace, applications, security and analytics from DXC, complemented by HPE innovation and leadership in servers, storage, networking and converged infrastructure

- A shared legacy with deep understanding of industry to minimize risk and accelerate your transformation

- Ability to scale to support organizations large and small

About HPE

Hewlett Packard Enterprise is the global edge-to-cloud platform as-a-service company that helps organizations accelerate outcomes by unlocking value from all of their data, everywhere. Built on decades of reimagining the future and innovating to advance the way people live and work, HPE delivers unique, open and intelligent technology solutions, with a consistent experience across all clouds and edges, to help customers develop new business models, engage in new ways, and increase operational performance.

Customer benefits

Disruption and transformation — that's today's business climate. In response, companies are rethinking their business and accelerating their transformation — not only to keep up with new entrants in the market, but to move ahead of those late to change. To move fast, companies need the best partners.

More and more customers are turning to the combined power of DXC Technology's end-to-end services and Hewlett Packard Enterprise's (HPE's) world-class portfolio of servers, storage, networking and converged infrastructure.

Partnerships are powerful, and nowhere is the bond and synergy stronger than a partnership forged through shared history. DXC and HPE's decades-long partnership creates unique benefits:

- A deep knowledge of the two companies' technology, innovation, products and services to provide the right solutions for businesses

- A like-minded vision to help customers transform their business to thrive under competitive pressure and market changes

- Strong, long-standing relationships both with shared customers and each other — built over time from executive teams to the point of execution, resulting in the ability to simplify, de-risk and increase efficiency of IT delivery
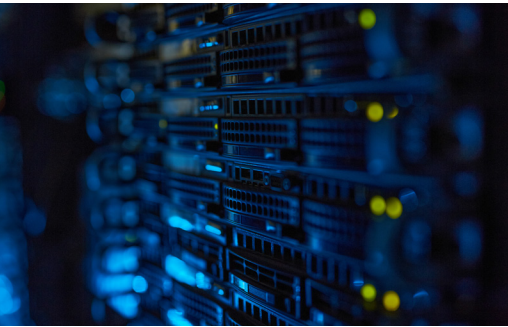

Together, we help transform and propel your business into the future.

Joint offering/solutions

Together, we accelerate transformation in areas most critical to a successful digital enterprise:

Applications, data and analytics solution. Next-generation services from DXC, paired with HPE solutions for storage, high-performance computing or converged systems drive deep insights and intelligent action to optimize performance and lower total cost of ownership (TCO) of data infrastructure.

Cloud and hybrid IT. DXC's industry-leading offerings combine with next-generation platforms from HPE to securely form the best mix of traditional IT, private and public cloud that can scale up and down to meet changing business needs. Together, this range of flexible and affordable infrastructure options ensures that IT costs and services are continually aligned to the demands of the business.

Together, we accelerate transformation in areas most critical to a successful digital enterprise.
