# DXC Insurance Software

Support your digitally savvy customers and manage the dual agenda of building the new while tackling the legacy — with an integrated insurance software solution.

As a global leader and No. 1 provider of core technology to the insurance industry, DXC Technology brings unparalleled domain expertise, software and services, and a world-class ecosystem of partners to help insurers achieve their digital transformation objectives. DXC modernizes technology estates and simultaneously builds new digital capability to enable the dual agenda across all lines of business: life and wealth, property and casualty, commercial and specialty, health insurers, brokers, reinsurers, corporate claims, and self-insured organizations.

## Enabling business transformation with next-gen systems

Our digital insurance platform serves as the foundation for the DXC Assure insurance software portfolio, providing systems of record and intelligent operations across the entire insurance value chain.

The DXC Assure portfolio offers a modern, cloud-enabled, microservices-composed solution for insurers seeking to build out digital, customer-driven services. And, it also enables insurance companies to integrate existing applications and technologies using DXC's comprehensive API framework.

## Key benefits

Through the integration of DXC software and our digital platform, we help insurers:

- Take new products to market faster

- Improve customer and agent experiences

- Boost cost efficiencies and innovation

The result is a distinctive and compelling digital customer experience, more streamlined and agile operations, and a launching pad for growth.

## Modularity, flexibility and regional compliance

Our DXC Assure portfolio supports your entire digital journey by giving you the flexibility to select what you need now and to then expand later. Our integrated as-a-service solution encompasses traditional policy administration and beyond, combined with self-service features, analytics, cognitive computing, artificial intelligence (AI) and other capabilities essential for the next decade.

DXC Assure components include:

- DXC Assure Policy
- DXC Assure Product
- DXC Assure New Business
- DXC Assure Claims
- DXC Assure Billing
- DXC Assure for Brokers
- DXC Assure Reinsurance

Our solutions address compliance with regional regulations, product needs, currency and language by providing geography-specific systems of record for all global regions.

## Manage costs and staffing constraints, get to market faster

You can also manage your IT costs and staffing constraints by leveraging out-of-the-box, straight-through processing and current approaches to customer engagement.

Insurers can also opt for DXC's business process services (BPS), to create complete, standalone insurance operations and get to market quickly without tying up scarce internal resources. With our integrated BPS solution, you can choose both DXC's enabling technologies and full third-party administration.

Furthermore, our portfolio offers you a gateway to a powerful partner ecosystem and a community of innovative insurtechs to ensure all offerings are pre-integrated with DXC Assure.

## Why DXC?

DXC is the #1 provider of core insurance systems, serving over 1,900 customers — 80 percent of whom are in the Fortune Global 500. DXC brings more than 40 years of industry domain knowledge and experience in enabling customers to modernize their technology estate and simultaneously build new digital capability — the dual agenda.

## Capabilities

- **Life and wealth.** Enhance customer engagement, drive trust, achieve growth and transform operations.

- **Property and casualty.** Grow premiums and retain policyholders while enhancing engagement and transforming operations.

- **Commercial and specialty.** Unlock new markets, launch new products, expand distribution channels and achieve operational efficiencies.

- **Broking.** Drive straight-through processing, manage IT costs and support the business life cycle, end to end.

- **Reinsurance.** Compete more effectively, enhance risk analysis, improve decision making and streamline operations.

- **Self-insured and corporate claims.** Automate risk management and claims processes and support a more comprehensive approach to risk, litigation, safety and claims.
