

DXC Assure New Business

Designed to support new business for global life and wealth insurers, DXC Assure New Business provides an intuitive digital experience for all users — from consumers to underwriters and case managers.

Modern and user-friendly

DXC Assure New Business delivers a digital new business experience, from quote to issue, with a compelling and modern persona-based interface for insurance consumers, underwriters and case managers. The software-as-a-service solution delivers seamless updates, scalability and cybersecurity to protect your enterprise investments. Using artificial intelligence, cloud and analytics capabilities, the solution provides digital-first customer experiences that are personal, intuitive and productive — delivered with speed, automation and scalability.

Configurable

As a composable solution, DXC Assure New Business allows you to select the components and products that are right for your insurance organization, so you can reduce unit costs, improve margins and increase customer retention with the latest technology.

DXC Assure New Business features

DXC Assure New Business offers a variety of configurable components:

- Quote and electronic application
- Underwriting and case manager workbenches
- Underwriting and business rules
- Configuration workbench
- Communication
- Product configuration (DXC Assure Life Product Engine)

Business rules and configuration can easily be modified by business users. The solution supports SaaS deployment and release management. It includes an extensive API catalog and event-driven services and is administrative-system agnostic. The intuitive user interface supports a robust, modern customer experience.

Key benefits

- Innovate without limits
- Elevate the buying and service experience
- Underwrite with state-of-the-art technology, data and analytics
- Integrate with evidence providers and third-party underwriting engines

Business value

DXC Assure New Business delivers value for insurers:

- **Greater operational efficiency and lower costs.** Automated underwriting allows underwriters to focus on more complex cases. Activity tracking expedites case management.
- **Better service quality.** The solution is modern and responsive with productivity features in composable underwriting and case management workbenches.
- **Greater customer insights.** Digitally driven customer engagement allows for product and data analytics.
- **Configurability.** Dashboards can be configured for product development, business flows, rules, user interface themes, styles, underwriting rules and requirement processing.

Why DXC?

With more than 40 years of innovation in the industry, DXC Technology is the number one provider of core insurance systems. With DXC Assure New Business, we deliver:

- **Cloud-native technology.** Powered by the DXC Assure Digital Foundation, DXC Assure New Business uses cloud-native serverless technologies.
- **New business specialty.** DXC Assure New Business focuses on new business, making the policy administration system agnostic and allowing for integration with heritage as well as digital administration systems.
- **Artificial intelligence and third-party integration.** DXC Assure New Business uses artificial intelligence and allows for seamless integration with providers, vendors and client systems.

Capabilities

- Extensive API catalog supports integration with e-signature, e-payment, wearables, third-party underwriting and more.
- Automation and productivity features enable expedited applications.
- Activity tracking and reporting enable expedited case management.
- Modern user interface allows viewing and managing of underwriting requirements and results.
- Integration with the DXC Assure Digital Platform enables DevOps, DevSecOps, scalability and redundancy, including automated deployment for CI/CD pipelines with built-in automated testing, code quality and security scans.
