About Microsoft

Microsoft (Nasdaq "MSFT" @microsoft) enables digital transformation for the era of an intelligent cloud and an intelligent edge. Its mission is to empower every person and every organization on the planet to achieve more. Learn more at www.microsoft.com.

Complex solutions made simple

Global strategic partners for over 30 years, we modernize and deliver tangible results across cloud, workplace and applications.

Customer benefits

Businesses need solutions that connect their people, data and processes. They require partners with experience to solve problems across their enterprise estate. DXC Technology and Microsoft provide modern, industry-customized solutions that enable our customers to focus on what they do best.

Intelligent decisions. We enable quick, proactive decision making by optimizing, managing and monitoring application workloads on Microsoft platforms; consolidating and integrating data; and facilitating powerful predictive analytics with AI.

Modern platform for growth. DXC provides a swift and sure path to unprecedented business insights and modernization. We use the flexibility and agility inherent in public and hybrid clouds to provide a platform for growth. DXC Managed Services for Microsoft Azure unlock the flexibility and affordability of Azure and give confidence that your applications are secure and managed 24x7. We help determine the best approach for applications retained on premises or in the Microsoft cloud.

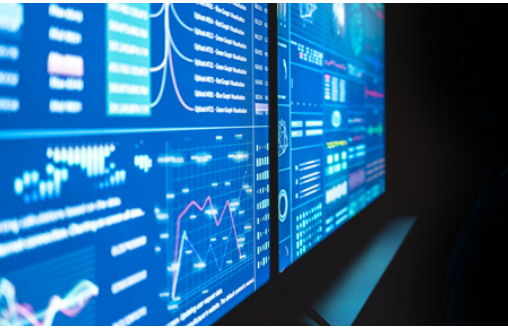

Secure business. Security is a foundational element of every DXC and Microsoft solution. We minimize risk and exposure, augmenting Microsoft's cloud-based solutions applications and user environments so they are protected, compliant and auditable.

Joint offerings/solutions

DXC and Microsoft deliver tangible results.

Modern Workplace. DXC provides a personalized, intelligent, secure workplace to enhance employee experiences and improve decision making using data insights. We do this with Microsoft 365, Teams, Windows Virtual Desktop, Microsoft Managed Desktop and HoloLens.

Enterprise and Application Services. Our end-to-end, industry-specific solutions are built on Microsoft Dynamics 365, Power Apps and Azure for maximum resource planning, customer relationship management and innovation.

About DXC Partner Ecosystem

The DXC Partner Ecosystem is a curated ecosystem of partner relationships built on a foundation of collaboration, differentiation and innovation. Together, we work to deliver the right solution and the right team to address complex, critical customer business challenges. Learn more at dxc.com/partnerecosystem.

Cloud and platform services. DXC unlocks the flexibility and affordability of Azure — through application transformation, migration and 24x7 management and monitoring. DXC delivers SAP, analytics and Azure Platform as a Service (PaaS) resource management with automation, simplified operational processes and enterprise-grade reliability.

Analytics. DXC deploys solutions on Azure to ease data estate migration, modernize analytics programs and harness AI to transform data into actionable intelligence. We optimize data, workloads and analytics processes and our Analytics Modernization and Migration Factory applies a set of methods and accelerators for migration and transformation to Azure with Synapse, IoT and Power Apps, including Power BI.

Software licensing and management solutions. DXC reduces costs and risks by enhancing visibility and control across the license estate — improving software pricing, terms and compliance.

DXC's Cloud Platform Services provide centralized processes, including contract, vendor management, licensing and cloud service desk.

Differentiation

DXC delivers modernization and tangible results on the Microsoft platform across your entire enterprise landscape. We couple our leading portfolio with deep industry expertise across retail, CPG, healthcare, financial services and manufacturing to create solutions targeted at industry needs for maximum business impact. Our hosted and managed services provide a complete solution while offering easy interoperability with Microsoft's best-in-class cloud services so you can focus on what you do best.
